

OFFICE OF THE FORMER VICE PRESIDENT
THE HONORABLE AL GORE

July 11, 2006

Ms. Amy Newton
President
Newton Marasco Foundation

Dear Ms. Newton:

I want to congratulate you on a successful event, and thank you for doing your part to spread the message about global warming.

This is a critical point in a historic battle to eliminate the catastrophic levels of pollution that are endangering our planet. This film, *An Inconvenient Truth*, will hopefully be the beginning of a widespread call to action.

Thank you and your distinguished guests this evening for all you are doing in this endeavor.

Sincerely,

Al Gore
